

Force 5™ Performance Warranty

Endura Products, Inc. guarantees every Force 5™ product to be free of defect in material and/or workmanship for the life of the product to the original homeowner. Further, Endura guarantees every Force 5™ System, when purchased from an Authorized Force 5™ Dealer, to perform to the advertised performance criteria of that system. Should, at any time, an Endura Force 5™ System fail to perform to the stated criteria for any reason other than those Conditions stated below, Endura will, at its own cost, adjust, repair, or replace the product in order to meet the stated performance criteria.

Conditions: Proper periodic maintenance is the responsibility of the homeowner. This guarantee does not cover Endura Force 5™ products that are improperly installed; are installed in conjunction with substandard corresponding components; fail due to poor structural or architectural design, execution or anomaly; or are subjected to damage due to installation, delivery, construction or misuse. Endura further requires that all Force 5™ Systems must be assembled by an Authorized Force 5™ Dealer in the manner described in Force 5™ Assembly and Installation Instructions and that a contractor/subcontractor installing the Force 5™ Door Unit in a rough opening must follow and execute the Force 5™ Rough Opening Installation Instructions. Failure to follow these Assembly and Installation Instructions will render this Warranty null and void.

Endura Products, Inc., as manufacturer of Force 5™ products, must be NOTIFIED IN WRITING within 60 (sixty) days of the original complaint and reserves the right to inspect, repair, or replace a part or product to meet the needs of its original purpose. Endura reserves the right to mitigate any damages arising from this guarantee with the original purchaser of the product to the mutual satisfaction of both parties.
