ENDURA PRODUCTS' SHOWCASES WOOD CLAD ULTIMATE ASTRAGAL

GREENSBORO, NC – September 2005 – The Wood Clad Ultimate Astragal from Endura Products, Inc. has been selected as the Most Innovative Door Component by Window & Door Magazine's 2005 Crystal Achievement Awards program.

Endura's Wood Clad Ultimate Astragal offers a new solution to an old problem – how to protect high end wood or fiberglass French doors from failure and deterioration. The Wood Clad Astragal creates a beautiful system, while giving the door unit performance features such as a patented three point sealing system, multi-positionable strike and deadbolt plates and enhanced security features. The Wood Clad astragal is available in a variety of species – oak, mahogany, pine and Douglas Fir – to meet builder's and homeowner's needs. The wood is molded from clear grade lumber and is ready for finish coating by the pre-hanger. The Wood Clad Ultimate Astragal from Endura Products offers a solution for common French Door problems – with patented performance features – while creating a beautiful look that enhances the door unit.

About Endura Products, Inc.

Endura Products, Inc. manufactures entry door component systems that improve door construction, door installation and long-term performance in the home. Endura components improve functionality, maximize the seal between the door and the opening, and reduce air.
