FOR IMMEDIATE RELEASE

IT'S NOT A DOOR WITHOUT ENDURA.™

ENDURA TO SPOTLIGHT NEWLY ACQUIRED FRAMESAVER AT IBS 2006

GREENSBORO, NC – December 2005 – Endura Products will be participating in the International Builders Show in January 2006 with not just one, but two booths. With the acquisition of FrameSaver®, Endura's quality line of door components will be showcased at booth #S10751 and also at #W6061.

Endura's commitment to delivering innovative solutions and products to the ever-expanding residential new home construction market is enhanced yet again with the addition of FrameSaver. It will be easy to see how "It's Not a Door Without Endura" proves true in every real-world situation. By focusing on issues relating to poor performance of door units, Endura is able to develop products that address these issues and relieve the stress of callbacks for builders.

At booth #S10751, the focus will be on the patented **FrameSaver®** technology that features wood door frames fingerjointed with a revolutionary wood composite material. This technology eliminates water penetration and provides a rot proof guarantee – a warranty backed by performance. FrameSaver is available in entry, patio and garage door frames.

At booth #W6061, Endura will showcase multiple problem-solving door components. The all-composite Z-Series Sill, the leak-proof Ultimate Astragal, FrameSaver, and maintenance-free PVC Pre-Finished Frames will all be spotlighted. Renowned speaker Bill Robinson will also be giving live presentations throughout the entire show. Be sure to stop by to be entertained and learn why "It's Not a Door Without Endura".

About Endura Products, Inc.

Endura Products, Inc. manufactures entry door component systems that improve door construction, door installation and long-term performance in the home. Endura components improve functionality, maximize the seal between the door and the opening, and reduce air and water infiltration.

About FrameSaver

Based in Nacogdoches, Texas, FrameSaver is the market leader in technology-based, moisture proof, wood frame solutions for the building and construction industries. Utilizing patented, rot-resistant ends, FrameSaver produces the only wood door frame that eliminates "callbacks" for the building and construction professional. Offering a lifetime guarantee, the FrameSaver line of products includes wood frames for doors and garages.
