**FOR IMMEDIATE RELEASE
IT'S HOW DOORS WORK.™**

ENDURA PRODUCTS MEETS CUSTOMER DEMAND WITH SURESILL™ SINGLE PACK

Greensboro, NC - Distributors and Dealers have requested the ability to provide the SureSill™ Sloped Sill Pan in individual pre-packaged units for their prehung units or Dealer customers. The ease and convenience of stapling an individual sill pan to each door unit for shipment to a job site was a top priority in making the package durable, yet cost-effective. Both of these elements are met with the newly developed all-inclusive SureSill Single Pack.

Efficient packaging contains the top-performing SureSill™ Sloped Sill Pan, 2 end caps, a generous portion of PVC cement, and an easy-to-read instruction label on each sill pan. A variety of sizes offered include 4-9/16" x 40", 4-9/16" x 80, 6-9/16" x 40 and 6-9/16" x 80".

To secure the contents of the Single Pack, the durable cardboard packaging has glued locking tabs on each side and a zip tie which holds the sill pan firmly in place during shipment, as well as for the builder on the job site.

The SureSill™ Single Pack is available for order beginning July 5, 2005.

About Endura Products, Inc.

Endura Products, Inc. manufactures entry door component systems that improve door construction, door installation and long-term performance in the home. Endura components improve functionality, maximize the seal between the door and the opening, and reduce air.
