FrameSaver Awarded With Innovative Implementation Award From Prophix Software

Award Recognizes FrameSaver For Innovation In Internal Budget Processes

NACOGDOCHES, Texas – FrameSaver, an industry innovator in wood door frame technology, announces Prophix Software has awarded the company its annual Innovative Leader Award.

Nominated by Prophix operations' group, winners were selected by MMG Technologies, a non-affiliated and third party leader in ROI and value justification. The award recognizes customer's innovative implementation methods of Prophix's software resulting in the direct impact on the company's bottom line.

"FrameSaver was recognized for its innovative use of our software, said Jim Reid, chief operations officer and vice president, sales & marketing, Prophix Software.

"FrameSaver's implementation reached across every level of management within their budgeting process. This new budgeting method yielded a remarkable return on investment within one quarter. This is a great example of innovative leadership."

Prophix annually selects 60 nominees for the award from their base of 10,000 plus customers. After narrowing down the list to twelve finalists, only three companies receive the final award.

Accepting the award was Michael Kunk, FrameSaver's chief financial officer. "Our efforts are organization-wide and reach from senior executives to individual work centers involvement in budgeting. The combination of the Prophix software with FrameSaver's leadership produced a significant return on investment. Our efforts have already saved \$67 for every \$1 spent."

Clif Gregory, FrameSaver's operations manager goes on to say, "The moral boost that resulted from the involvement of the work centers in the budgeting process has been phenomenal! Work center teams are continuously looking for ways to cut costs and meet or beat their submitted budgets."

FrameSaver recognizes the value of its employees' contributions, "It is a great honor to receive this award," said Rick Hagel, FrameSaver's chief executive officer. "Like Prophix,

FrameSaver is committed to quality and continuous improvement while providing innovative wood solutions for the building and construction industry.”

-More-

About FrameSaver

Based in Nacogdoches, Texas, FrameSaver is the market leader in technology-based, moisture proof, wood frame solutions for the building and construction industries. Utilizing patented, rot-resistant ends, FrameSaver produces the only wood door frame that eliminates “callbacks” for the building and construction professional. Offering a lifetime guarantee, the FrameSaver line of products includes wood frames for doors and garages.

About Prophix Software

PROPHIX Software is a privately held company based in Toronto, Canada, and is the developer of PROPHIX budgeting solutions. PROPHIX is a multi-user financial software application employed by thousands of users worldwide for budgeting, planning, financial consolidation and management reporting and analysis. The software offers the familiarity of a spreadsheet-style interface with added benefits for handling multiple users and managing data.

The company pioneered the introduction of new concepts such as OLAP mini-cubes and Delta Analysis. The PROPHIX range of products is extremely scalable, including an entry-level LAN-based budgeting application – PROPHIX Budgets - and a more sophisticated enterprise financial application – PROPHIX Enterprise - that has client/server capabilities. For more information please visit www.PROPHIX.com.
