

ULTIMATE LITE ASTRAGAL

AFFORDABLE DESIGN. UNCOMPROMISED PERFORMANCE.

With the Ultimate Lite Astragal, cost-efficiency doesn't have to mean compromised performance. Get superior sealing power, in a light, budget-friendly design, with auto-locking 9" bolts.

- ▶ **Simple Sliding Bolt Operation:** Slide to engage. Slide to retract. That's it.
- ▶ **Sealing Performance:** Spring-loaded Floating Boot, Simple Solution® Corner Pad and weatherstrip come standard, sealing out water and air.
- ▶ **Auto-Locking Bolt Feature:** 9" bolt automatically locks for security and peace of mind. No extra locking steps necessary.
- ▶ **Hardware Customization:** 4-way adjustable strike retainers feature Snap-n-Size™ functionality and can be easily removed, resized and repositioned to accommodate various hardware sizes and styles.

HOW DOES IT WORK?

SLIDE TO ENGAGE.

Each bolt engages with a simple sliding action. Spring-loaded Floating Boot seals, independently from the bolt, against the sill to fight air and water infiltration even in imperfect conditions.

SLIDE TO RETRACT.

Each bolt retracts with a simple sliding action. Spring loaded Floating Boot lifts clear of the sill preventing wear and damage, allowing problem-free use of the inactive door.

SNAP-N-SIZE™ STRIKE RETAINERS

REMOVE.
Innovative strike retainer design allows effortless removal from the astragal. Simply snap out to remove. No extra steps required.

RESIZE.
Built-in break lines allow easy resizing. No tools necessary.

REPLACE & REPOSITION.
Snap the strike retainer pieces into the astragal and position as needed to meet your hardware needs.

SPECIFICATIONS OVERVIEW

FEATURES	AVAILABILITY & OPTIONS
