## The PanoLock+ Claim Procedure is as follows:

- (I) Homeowner contacts Endura Products to initiate the PanoLock+ Warranty Claim Procedure.
- (II) If the issue cannot be resolved by the Warranty Holder and Endura Customer Service, Endura will evaluate the provided claim information to determine if further field inspection is required. If a detailed lock inspection is necessary to properly diagnose the problem at hand, using the Proof of purchase of the PanoLock+ Product, Endura Products will contact the appropriate Endura representative organization ("Endura Rep") to notify them that a PanoLock+ Warranty complaint has been received, and that inspection claim procedure needs to be initiated. Endura Rep may contact the appropriate Distributor and (a) request that the Distributor contacts the Warranty Holder to arrange an on-site PanoLock+ product Inspection and (b) provide the Distributor with an electronic copy of the PanoLock+ Warranty Inspection Guide that will be used by the Distributor/Dealer/ Builder to assess the condition of the Product.
- (III) If justified by the initial warranty claim, Endura will provide the homeowners with suitable replacement hardware.
- (IV) If the Distributor/Dealer/Builder is unable to fix the product, but the root cause of the issue has been determined based on the on-site inspection and the Product failure is covered by the Warranty, the inspecting representative will arrange for proper repairs/replacements. All required replacement components will be then either (a) sent directly to the warranty holder along with replacement instructions, or (b) provided and replaced by Endura Rep or the distributor's service representative. If the root cause of the problem cannot be identified during the field inspection, the smallest required components sub-assembly will be replaced under this Warranty. All assemblies replaced under this condition have to be returned to Endura for further diagnosis and Warranty coverage validation.
- (V) If the root cause of the complaint is found to be due to improper/out-of-specification Assembly or Installation, then the costs to fix the Product are to be borne by the responsible party. Specifically, issues resulting from the improper assembly shall be the responsibility of the Pre-Hanger or Distributor; issues resulting from improper installation shall be the responsibility of the builder or installer; issues resulting from improper maintenance and care of the door unit shall be the responsibility of the Warranty Holder. And, in the event that satisfactory repairs cannot be made to the unit, the cost of replacement of the entire unit shall also be covered by the responsible party.
- (VI) If it is determined that the complaint is due to a faulty Product, meaning that ALL PanoLock+ Assembly and Installation instructions were followed, Endura will then revert to the conditions stated in the written PanoLock+ Warranty to mitigate the problem and/or existing conditions.
- 5.
